The results of the Parish Council element of the housing needs survey are as follows

114 completed forms were returned

In response to "which areas are important to me" and number of those who confirmed they would be happy with a precept increase

	Impor	Important to me		ept up
	Number	Percentage	Number	Percentage
1. Highways, Traffic and Roads – lighting, parking places, signage, drainage, tree planting, verge maintenance, speeding, road maintenance	98	86.0	41	36.0
2. Rights of Way – maintenance of footpaths and bridleways	89	78.1	17	14.9
3. Litter – litter bins, anti-littering campaigns, annual litter pick	81	71.1	10	8.8
4. Conservation & Biodiversity – working to protect stone walls, hedgerows, etc and to increase and protect wildlife and other flora and fauna in the parish	100	87.7	19	16.7
5. Business – supporting business growth in the parish	61	53.5	7	6.1
6. Communication – working with other parties to encourage improvements in communication infrastructure within the village including postal, telephone, internet etc	87	76.3	13	11.4
7. Waste and Recycling – increase the provision of recycling in the parish	53	46.5	5	4.4
8. Community Cohesion – providing information on clubs and societies in the village and welcoming new residents into the community	63	55.3	4	3.5
9. Public and low carbon transport – working to improve the provision of public transport, cycling routes and storage, safe walking routes and electric vehicle charging points	60	52.6	11	9.6
10. Recreation & Tourism – including supporting village organisations such as Village Hall, School, Pre-School and Church	82	71.9	15	13.2

In response to "Where do you get information from about the parish council?"

	Number	Percentage
Hill & Valley	111	97.4
Chedworth Facebook	43	37.7
Chedworth Chatter	43	37.7
Parish Council Website	33	28.9
Public Notice Boards	42	36.8
Chedworth Village emails	42	36.8
Wilts & Glos Standard	39	34.2

For each of the areas the comments received were as follows. Items in bold are those where the person would be happy for the precept to increase ("yes" indicates they were happy for the precept to be increased for this area but made no specific comment.

1. Highways, Traffic and Roads – *lighting, parking places, signage, drainage, tree planting, verge maintenance, speeding, road maintenance*

30MPH speed limit to roads between village centre and lower Chedworth

Absolutely against street lighting – it will only encourage speeding and not add to safety

All the efforts made to improve Seven Tuns Drainage/verge maintenance road maintenance much appreciated

Clearing sidesa of the roads after hedge tree cutting to prevent punctures

Continue to encourage home owners to maintain verges

Drainage

Road Maintenance

Drainage and Potholes very bad.

Verges got very untidy and difficult to get round when driving

Drainage and verge Management

Drainage down Tuns Hill

Keep on top of Pothole maintenance

Gutter provision tuns hill and through village

Drainage on Queen Street

Street signs

Fill potholes in roads

Happy we do not have street lights

We do not need more trees

Roads and verges important

Highway Maintenance

Highways and safety Speeding road maintenance

Highways Traffic and Roads

Less Suburbanisation

Less signage

More road repairs

Litter on verges

Maintain verges

Parking places esp in lower road

Speeding on Fields Road

Maintenance of natural verges and habitats

Less suburbanisation No extra lighting Better road surfaces No lighting or concrete kerbs please. Please pursue conservation management options for verges. No Lighting -ruin village atmosphere Road Maintenance Verge maintenance No street lights ever. No more signs. No verge planting unless wildflower seeding. Too many potholes. **Drainage on Tuns Hill important.** Hard standing for new housing can cause drainage problems in lower valley which may not be obvious for a long time. Road gullies on higher ground often discharge into the hillside below and discharge further down, wherever the ground formations allow, causing damage. No street lights please No to lighting Yes to drainage Not urbanising Chedworth. If we want flashing lights, we will move to London. Yellow zigzags are unsightly and the sort of person inconsiderate enough to have sparked this action is most definitely not going to stop parking inappropriately Off road parking for residents Verge Maintenance for pedestrians refuge when walking **Road maintenance** Parking verge maintenance speeding raod maintenance **Potholes**

Speeding

Potholes

Trim Verges and roadside hedges

Verge Maintenance

Potholes

Trees

Proper maintenance of verges and drainage especially along Field Road towards Withington near Manor Farm. Examine ways to encourage slower driving through the village. Possibly with lower speed signage in association with the Highways department. Also, pay attention to the erosion of verges by residents parking cars on them leading to muddy and unsightly "layby's".

Quality of road surface is poor between Chedworth and Withington

Quality of surface of the roads and maintenance and repair thereof.

Recently aggressive hedge cutting has led to bank erosion mud trimmings and faster moving traffic

Repair roads

2. Rights of Way – maintenance of footpaths and bridleways

Pacia unkaan anku
Basic upkeep only
Better signage of footpaths
Both
Both Footpaths and bridleways
certain landowners should make more of an effort through the valley
Clear well maintained
Clearing of weeds/obstacle
Ease of access etc important
Encouraging Landowners to keep paths clear
Footpath maintenance
Dog friendly styles
footpaths
Footpaths
Footpaths around the village are a great asset and need to be protected
Footpaths need to be kept open & remain in position
Footpaths overgrown
Getting landowners to take responsibility for PRoW maintenance.
Grass cutting
Keep clear, well signed
Keep them open
Keep up the warden patrols please
and prevent loss of footpaths by new residents who buy with a known footpath and try to block it.
Keeping footpaths clearly signed and maintained
Landowners ensuring access(some have electric fences difficult/impossible to get over)
Landowners should help
Maintenance
Maintenance of footpath and signage thereof, in keeping with AoNB.
Maintenance of Footpaths
Make sure not blocked by electric fence
·
No locked gates please Obstructions particularly from agricultural effluent, poor drainage
Obstructions particularly from agricultural effluent, poor drainage
Obstructions particularly from agricultural effluent, poor drainage Overgrown poor access
Obstructions particularly from agricultural effluent, poor drainage Overgrown poor access Potholes for walkers

3. Litter – litter bins, anti-littering campaigns, annual litter pick
All three
Annual litter pick
Encouragement to take litter home
Annual Litter pick
Annual litter pick goo for community spirit
Annual litter pick, bins
Anti-litter campaigns litter pick
Bins and annual pick
Bins and litter campaigns
Campaigns and litter picks very worthwhile
Discourage in the first place. Litter to include untidy land.
Dog fouling!
Dog poo bins
Earlier notice of litter pick so I can help
Encourage homeowners / residents to help maintain litter free roads throughout the year. An
annual litter pick is a good idea too.
General litter on verge
Insist Highway along litter from yourse of Faces way
Insist Highways clear litter from verges of Fosseway
Litter
Litter
Litter Bins
Litter bins
Litter bins
Litter bins and emptying
Litter in all the lanes is dreadful- anti litter campaign would be useful
Litter pick
Litter pick
Litter pick Dog fouling and use of poo bins
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous Only dog poo on field
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous Only dog poo on field Particularly Dog fouling bins or signs
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous Only dog poo on field Particularly Dog fouling bins or signs the village should get together once every three months to tackle local litter picking
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous Only dog poo on field Particularly Dog fouling bins or signs the village should get together once every three months to tackle local litter picking This is a growing problem in all roads surrounding the village
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous Only dog poo on field Particularly Dog fouling bins or signs the village should get together once every three months to tackle local litter picking This is a growing problem in all roads surrounding the village Twice a year litter pick with volunteers to be responsible for each area
Litter pick Dog fouling and use of poo bins Litter pick increase to twice a year Litter picking is good & gets community involved More dog waste bins N/A as not an issue Not just unsightly but potentially Dangerous Only dog poo on field Particularly Dog fouling bins or signs the village should get together once every three months to tackle local litter picking This is a growing problem in all roads surrounding the village Twice a year litter pick with volunteers to be responsible for each area Vast increase in general verge side litter

Yes

4. Conservation & Biodiversity – working to protect stone walls, hedgerows, etc and to increase and protect wildlife and other flora and fauna in the parish

All aspect grants for walls

All Aspects

All should be maintained

Education of community

Encourage landowners

Encouraging those with collapsing walls to get them rebuilt

Ensuring that land is kept clear of development that is antagonistic to bio-diversity.

General attention to these aspects can only be a good thing

General Maintenance

Have protected areas

Hedgerows and stone walls

Ideally a mobile mast which can provide good mobile reception throughout Chedworth

Important but not something for the parish council

Important but should be landowners

Improve hedgerows

Let verges be natural, only cut if blocking view of traffic

Maintenance of stone walls

Maintenance of stonewalls

Maybe a survey to note existing and local monitoring

More car reqd for stone walls and hedgerows (Farmers)

Need to keep character of village

Not just pleasurable to look at but vital to keep the balance of the eco system

Not to the detriment of verge maintenance

Odd to have communications in this category.

No old technology masts. Happy to wait for smart new mobile masts.

Keep stream running safely and repair and maintain old walls.

PC are actively destroying wildlife habitat by decimating verges. Stop it!

Protect stone walls

Protect wildlife frlora & fauna

Protecting Stone walls

Provision of Hedgerows and stone walling

Reduce cats and squirrels

Repairing stone walls and protecting flora and fauna

Review hedge cutting – it is sometimes too drastic

Stone walls

Stone walls

Stone walls

Maintenance of verges

Stone walls and hedgerows

Stone walls are not a council matter

Stonewalls / hedgerows

Stonewalls are in many places damaged or are in danger of subsiding

Strange definition of Conservation and Biodiversity. You are plainly not intending to address this crucially important element. Suggest you start supporting CHEG.

Things need to be left tidy but with conservation in mind

Unblocking stream

Upkeep of stone wall and hedges

Verge management to promote biodiversity and traditional habitats

Verges to be cut at strategic places eg road junctions, otherwise au naturale

Walls and hedges need regular checks but at landowner expense if applicable	
Wildlife protection	
yes	

5. Business – supporting business growth in the parish
Adequate at present. Why move to Chedworth if you want to run a business except farming etc
Business growth itself must support itself in the main
Encourage provision of premises for small businesses. Improve all means of communication.
Flexibility of development
For residents
How?
If used by public ie Farm shop VH
Important but would suggest best left to businesses
Improving Mobile communication
Internet and phone
It will take care of itself
Local businesses
Local employees need support
Make mobile reception better
Mobile signal
No to mast
Persevering with wifi coverage and Mast (hidden)
Provision of mobile phone signal
Small business development
Supporting new business
Use of old barns for silent business is good. Home working is vastly improved by new internet.
What about other employment opportunities
Yes

6. Communication – working with other parties to encourage improvements in communication infrastructure within the village including postal, telephone, internet etc

A lot has been done but could be improved Adequate thank you ΑII Although telephone reception is poor in the village we are now on a par with other villages re postal and internet **Communication infrastructure** Currently being worked on mobile connection Existing structures more than adequate Gigaclear is great having fibre and mobile connectivity should be enough for everyone in the village. we dont need a mast. If PC members use facebook, make a PC page so posts don't get lost on village page Improve mobile signal/Install mast Improved mobile reception Improving Mobile communication Internet Internet and mobile Internet and mobile phone signal Internet mobile phone coverage Internet now good. Not interested in improving mobile for drivers as they should not use mobiles. Post is perfect for home life in a village. Internet now works mobile patchy but O2 gives good cover across village Liaise with other local groups Maintain Current efforts Make mobile reception better Mobile a must have Mobile coverage Mobile network Mobile phone Mobile phone accessibility Mobile phone coverage Mobile phone coverage Mobile phone coverage currently poor/non-existent Mobile Phone coverage for all Mobile phone reception Mobile phone reception throughout area not just homes Mobile phone signal improvement Mobile phone signal strength Mobile phone usage Mobile service Mobile signal Mobile signal is extremely poor and in many areas of the village non-existent Much improved with Gigaclea No to mast PC have shown themselves to be poor in this Persevering with wifi coverage and Mast (hidden) **Postal** Telephone

Postal telephone and internet we already have See above under Conservation & Biodiversity

Tetrapack

Foil
This has been much improved by Gigaclear but is quite expensive
Two bins have recently been removed – Why?
We are already blessed with a fantastic broadband infrastructure
Hilly topography makes mobiles comms difficult
While important the mobile phone agenda seems driven by narrow solutions favoured by a few
individuals. Focus on mobile signal would only be supported by me if genuine consultation on a
wider range of solutions took place
Why do you ask when 60% of the village voted for a mobile phone mast opposite your houses and
you wouldn't have it!
yes

7. Waste and Recycling – increase the provision of recycling in the parish

Adequate and reliable service at present
Adequate provision in place
Adequate thank you
Already done
Already good
Already provided for by the recycling centre
Bottle bank has gone
But already very good
But do not reduce
Central recycling area for bottles can paper
Reduce amount of lorry movement through village
Current facilities locally are good
Fine twice monthly as is
Good at present but needs constant review
Happy as is
I am quite satisfied
Important but best left to CDC
it should be reiterated to the village that there are recycling bins up at the village hall.
Litter
Look at WODC – green bins collected weekly inc recycling fortnightly for recycling not sufficient
More collections
More points at VH
More recycling
Perfectly adequate as is
Plastics bin @ VH
Present is adequate
Pretty good already
Provision is currently good
Provision of bottle banks
Q
Recycling should be encouraged
Replace all banks at VH
Residents without cars cannot take advantage of Fosse Cross recycling
Satisfactory
Seems to be working OK
Think fine
We already have a perfectly adequate recycling centre at Calmsden
We already have sufficient
We have Fossebridge tip nearby and we should all be using their recycling service.

Yes

8. Community Cohesion – providing information on clubs and societies in the village and welcoming new residents into the community

Adequate provision in place
Adequate thank you
Already lots of information out there
Already well provided for through websites
All
Already in H&V
Already in magazine
Already sufficient
Although is needed but not at expense of PC
Being done very well
Chedworth is good at this
Church and H&V do this
Currently provided by H&V village website and social media
Good neighbour campaign
H&V could do more to provide info on clubs etc
Clubs could do more to approach new residents
H&V excellent for this purpose
H&V gives info needed
H&V is vital
Information is available
Liaise with FoSAC welcome pack to new residents
List of clubs etc for newcomers
Not a PC issue
Please note that no matter how much advertising is done to promote events in this village I have
personally found that villagers do not support them eg events at the pub or VH. They moan when
they're closed and don't support them when open!
Possible means of inclusion of new resident's leaflet listing village amenities contact numbers info
about website
Present H&V excellent
Chedworth Chatter fine
Providing information means people are more likely to join in
Seems to be working already
Think this is already good
This already happens
This is already done fairly well
This is much improved with the Village website and news
Very important. A commitment to more affordable housing would be supported
Village information systems are greatly improved - thank you
Welcome packs for new people is a nice idea.
Please do not rely on Facebook- most sane people will not post on it for fear of reprisal.
I had to resort to it to find a link to this parish survey I was told existed but was not on the Parish
Council website where everyone can see.
Yes
Yes
Yes

9. Public and low carbon transport – working to improve the provision of public transport, cycling routes and storage, safe walking routes and electric vehicle charging points

cycling routes and storage, safe walking routes and electric vehicle charging points	
Agreed	
All except charging point	
Better bus service	
Bus service	
Cannot see need for vehicle charge points – maybe in the distant future	
Charging point at village hall or farm shop would be good	
Cycle routes would be good to avoid Whiteway	
Public transport too expensive to be reliable enough	
Cycling routes would be appreciated.	
Perhaps One charge point at VH	
Desperate need for a footpath on Fields Road from Hemplands to VH and school	
Electric car charging point	
Electric charging point	
Everyone needs a car Haven't seen many electric cars yet but maybe needs looking at in the fut	ure
Examine ways to help promote good walking and cycling routes through and around the villag	
Good idea but how can anyone solve these issues in this area	
I see this as more long term but valid	
Important but don't believe parish council can influence much here. Vehicle charging point at vi	llage
hall?!	Ü
Improve transport for elderly and other non car users	
Improved public transport with smaller vehicles	
Improving Public Transport	
Maybe a non-tarmac footpath on the residential side of Fields Road would stop the complaints	
about traffic but definitely not on the rural side.	
No bus is the price to pay for living in an unspoilt, thus unsustainable, village for as long as you c	an
manage.	
Necessary provision in place	
No cycle routes!	
Not a PC issue	
Off-road parking could be improved	
Provision of local public transport	
Public Transport Public Transport	
Public transport	
Public Transport	
Safe walking	
Public transport	
Electric charging	
Public transport – close to non existent if no car can't live here	
Public transport to major centres	
Retain Public transport	
Safe cycle routes	
Safe walking	
Safe walking on Fields Road	
Safe walking route from VH to School	
Safe walking routes	
Silly idea, it's a country village!	
Think fine	
Would not use at present	
yes	
,, , , , , , , , , , , , , , , , , , ,	

Yes

10. Recreation & Tourism – including supporting village organisations such as Village Hall, School, Pre-School and Church

Adaquata provision in place	
Adequate provision in place	
All	
All	
All	
All aspects	
Believe all are currently well supported	
Camping for locals on field	
Chedworth is already good and doing this	
Children's playground needs expanding and repair. More for slightly older children	
Church/Pub/Farm Shop	
Each organisation ciuld promote themselves, freeing up the PC for other issues	
Fabric of church, VH and Deliberators Gigaclear is great	
Fell there is too much "updating" and focus on VH, it is fine! Invest in other things	
Hall school church	
Healthy village organisation are at the heart of the community	
How to retain children at village school instead of moving to others at 8 yrs	
I think the pub is a much more important hub than the Village Hall and should be strongly suppo	rted
by the Parish Council should it be in trouble again.	
If required and request from that organisation	
If required and request from that organisation	
Improve the look of the village with Welcome to Chedworth signs at the main entry points on Fig.	eld
Road similar to those at North Cerney. Support Village Show with sponsorship as well as other	
worthwhile village events. Also support an illuminated Christmas tree on the large grass area in	
front of the Village Hall. The Parish Council could do more to help beautify Chedworth as an	
attractive Cotswold village.	
Keep Churchyard to reasonable standard	
Need to support VH	
Not a PC issue	
Pre-school	
Pre-school – a must have to bring new life into the village	
Support pre-school & school to encourage numbers	
Support pre-school and school	
Support tfor important community charities such as pre-school	
VH	
VH	
Village Hail and school	
Village Hall amenities	
Pre-school	
Village hall and pre-school are important to support!	
Village hall support.	
Vital to the success of the village as a cohesive community	
Volunteer organisation already supported	
Well supported at present	
Yes
