a) To agree Membership and Terms of Reference for the Working Party: Several responses had been received to the advertisement for volunteers to serve on the working group. Upgrades to the existing Village Hall play area can also be considered if Chedworth Village Hall Committee agree. The Chedworth Playground Working Group may also consider siting the equipment on other land owned by the Parish Council. the recommendations to be put to the Chedworth Parish Council at face-to-face meetings under the terms of Section 102 of the Local Government Act 1972 and of the Public Bodies Admission to Meetings Act 1960. The members of the Chedworth Playground Working Group will be expected to declare any conflict of interests and a record of interests will be kept. The Parish Councillors on the group will declare interests in the same way that they declare interests for Parish Council matters and those interests will be included in the Parish Council register of interests.

- b) To consider any update regarding the composition of the Working Party & the meeting on 17<sup>th</sup> August: The inaugural meeting of the working group will be held on Monday 17<sup>th</sup> August, members of the public will be invited to be present. The Chairman of the Village Hall committee had been in touch to report that the current playground behind the Village Hall was in need of refurbishment as the wooded uprights had started to rot in the ground. He had obtained a quote, and the cost would be in the region of £17,000. It was agreed that the working group would consider whether to include this within the project.
- c) To consider the grant from Enovert: A grant had been applied for by the former working group, and it had been awarded £35,000, 10% of the grant needed to be paid back from 3<sup>rd</sup> party funds, so the actual grant was for £31,500. It was agreed to query whether the £10% can be paid from the Community Infrastructure Levy. The grant will be considered further by the working group.

Mr Hutton Potts asked if a skip could be hired to take the arisings as he has been clearing the stream. The initial work, including the September hay cut, scarification and seeding, would be externally funded. The principal ongoing responsibility for the Parish Council would be arranging an annual late-summer hay cut and removal of the cuttings, unless a local farmer can undertake this in return for the hay or at low cost. It was proposed by Mr McLellan and seconded by Mr Morgan to sign up to this, agreed.
